> *Per-tonne rates are calibrated to reflect actual diesel cost per tonne of aggregate produced, based on Grey Rock Materials Inc.'s internal cost analysis. Rates are fixed at the band level; customers need only identify the applicable band to verify their invoice.*

Should the NBEUB diesel price reach $5.10/L or above, Grey Rock Materials Inc. will issue an amended schedule on 30 days' notice.

How the FCA applies

1. On each Monday, look up the most recent NBEUB maximum retail diesel price (ULSD, self-serve) posted prior to that Monday at *nbeub.ca*.
2. Find the band in the table above containing that price. The per-tonne FCA for that band applies to all aggregate pickups Monday through Friday of that week.
3. The FCA is a flat dollar amount per tonne, applied equally to all aggregate products, and appears as a separate line item on each invoice showing the NBEUB price, publication date, band, and per-tonne FCA.
4. If the NBEUB price changes mid-week, the new rate applies to the following Monday, not the current week.
5. **HST (15%)** applies to all amounts including the FCA.

Other terms

- Grey Rock Materials Inc. absorbs all fuel cost increases when diesel is below $2.20/L.
- Grey Rock Materials Inc. may amend this schedule upon **30 days' written notice**.
- Placing an order, accepting delivery, or making payment on or after the effective date constitutes acceptance of the FCA as a term of sale.
